

Improving the learning process

	Question	Answer
1	What I liked ?	Material
2	What didn't you like?	Moved out text in slide 15
3	What can be improved?	Video, audio material

- 1 [1.Material](#)
 - 1.1 [Weak sides](#)
- 2 [2.What didn't you like?](#)
- 3 [3.What can be improved?](#)

1.Material

Strong sides	Weak sides
Lecture material often describes in detail all the processes that need to be done to complete homework.	Sometimes the material is not fully described and it takes more time for a student to understand a previously unknown term.

Example: “Layout layout” in the material there is no description of what it is and where to look for it, Google gives out a bunch of unnecessary information. But in fact, everything is simple: In Confluence, "markup layouts" are called "Page Templates".

2.What didn't you like?

Moved out text in slide 15

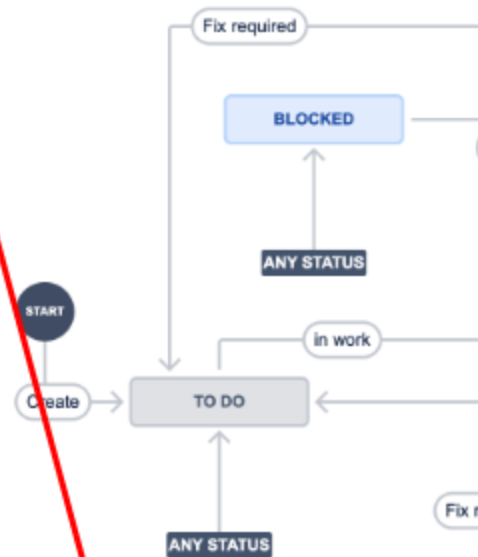

In this case, this does not interfere with understanding the text, but in the early lessons the slides moved out so that the logic was lost and complicate the understanding of the material

Основи роботи з Jira та Confluen

Workflow

Workflow (робочий процес) - це модель організаційних процесів, які дозволяють користувачам відстежувати прогрес поточних завдань у системі.

Має набір можливих статусів і переходів, які проходить завдання певного типу протягом усього свого життєвого циклу issues.

3.What can be improved?

Lack of video and audio material.

Video: In the case of the video, this is a review of the homework of past students, after seeing the mistakes of past students, you can quickly correct them at home

Audio: You can add links to the audio analysis of the topic in YouTube to the lecture, for background listening
